

Medical Pavilion unveiled

Health care offices in White Plains will have senior housing

North Street Community LLC has opened the Westchester Medical Pavilion, a 72,000-square-foot medical office complex at 311 North St. in White Plains. About 40 percent of the four-story building has been leased following a \$4 million renovation, the developer said. Among the new leases: Hospice & Palliative Care of Westchester, a not-for-profit home hospice care provider; Edna L. Roker Social Adult Day Care Center Inc., a senior day care program; Urogynecology and Advanced Pelvic Surgery P.C., a specialist for women's gynecological health. Dennis Noskin Architects of Tarrytown is the architect for the project. Rakow Commercial Realty Group is the exclusive leasing agent. North Street Community has plans to build 335 independent condominiums for people 60 and older at the 23-acre campus.
